**Subject:** Traffic photos - 55 Summer St Omni

Hi Everyone,

I'd like to attach more photos of the traffic pickup for BOYDEN school on Friday, 11/13. I believe Friday was considered to be a "slower" day per Omnis traffic study report.

I'm wondering if a condition on this Project could be to conduct our own traffic study for at least a full week on various months. The 2 days that Omni studied didn't accurately reflect traffic in this area.

Another reminder is that this only reflects half of the school, the other portion has remote days.

With an additional amount of students at Boyden from those 300 units, whether it be 50 or 100 students, traffic pickup could be backed up to Route 1, and could be also backed up by the train station near the post office.

Thank you,

Erica Burdon
